

Project Name:	
Type:	Date:
Catalog #:	

Description:

The Nulite WP series is a mini wallpack which is ideal for walkways, loading docks and small commercial projects. Luminaire is available in small HID or compact fluorescent and photocell adaptable.

Specifications:

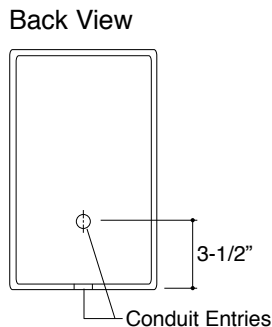

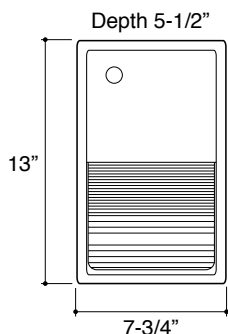

Construction: Die cast aluminum housing, molded borosilicate glass lens refractor, engineered aluminum reflector and powder coat paint finish - bronze (standard). Consult factory for other colors.

Reflector / Ballast: Reflector is aluminum and engineered for performance. HID ballast is open core & coil, and electronic ballast for compact fluorescent.

Lamping: 1 or 2 lamp compact fluorescent; 1 lamp metal halide or high pressure sodium. Luminaire can be ordered with lamps, consult factory.

Mounting: Wall mounted. Conduit access on bottom and back.

Labels: UL / cUL listed, suitable for Wet Locations.

Optional Wireguard

Ordering Information

Sample: WP-70MH-277-BZ-PC

Series	Wattage	Voltage	Color	Options
WP				
	Compact Fluorescent	120	BZ Bronze (Standard)	WG Wireguard
	113CFQ (1) 13W/G24q-1	277	Consult factory for custom colors.	PC ³ Photocell
